

MD. ZIAUR RAHMAN

Senior Software Engineer | PHP • Laravel • Vue.js

Bangladesh (Remote) • programmerzia@gmail.com • +880 1718-424859
linkedin.com/in/zia91 • github.com/programmerzia • programmerzia.com

PROFESSIONAL SUMMARY

Senior Software Engineer with 10 years of experience, 8+ of them building production PHP applications with Laravel and Symfony — booking platforms, multi-vendor marketplaces, CRMs, and healthcare systems — paired with strong Vue.js/Nuxt and React/Next.js frontend skills and deep MySQL/PostgreSQL experience. Most recently spent a year delivering AI-powered SaaS products for a Norwegian client as a full-stack contract engineer, adding C#/.NET, Azure, and Python to a career built on PHP, REST APIs, and relational databases. Comfortable owning features end to end: architecture, APIs, integrations, database design, testing, and deployment.

TECHNICAL SKILLS

Backend: PHP 8.x, Laravel, Symfony, REST APIs, Eloquent, Doctrine, Queues/Jobs, Authentication (Sanctum, JWT, OAuth)

Frontend: Vue.js 3, Nuxt, React, Next.js, TypeScript, JavaScript, Tailwind CSS

Databases: MySQL, PostgreSQL, SQL Server / Azure SQL, MongoDB, query optimization, migrations

DevOps & Tools: Docker, Git, GitHub Actions, CI/CD, Linux, Composer

Also Experienced In: C#, ASP.NET Core, Entity Framework Core, Node.js, Python, Azure, Supabase

Practices: API design, third-party & payment-gateway integration, legacy modernization, unit testing, code review, mentoring, Agile/Scrum

PROFESSIONAL EXPERIENCE

OSILION AS — Senior Full-Stack Engineer (Contract)

Sep 2025 – Present

Remote — Norway (osilion.no)

- Led end-to-end development of an AI-powered recruitment platform (job postings, candidate management, CV processing, AI interviews, scoring) using C#, ASP.NET Core, EF Core, Azure SQL, and React/Next.js.
- Built an automated lead-generation platform with bulk email outreach using Python, Supabase, and Next.js; contributed backend features to a sales CRM and a 3D container-design product.
- Designed backend services on layered/DDD architecture with JWT authentication, third-party integrations, and CI/CD deployment on Azure and Render — applying architectural discipline gained from years of Laravel/Symfony service design.

DEVVOYAGE — Senior Software Engineer

Jul 2023 – Aug 2025

Remote

- Built enterprise travel, e-commerce, and CRM solutions with PHP backends (Laravel, Symfony) and Vue.js frontends, including custom booking engines with availability, pricing, and reservation workflows.
- Designed and developed REST APIs for booking and customer-management workflows, integrating third-party services and payment gateways for end-to-end checkout flows.
- Created reusable Laravel/Symfony packages, backend services, and Vue component libraries that accelerated delivery across multiple client projects.
- Optimized MySQL database schemas and queries for production workloads; improved reliability of high-traffic booking operations.
- Set up CI/CD pipelines automating builds and deployments; mentored junior developers through code reviews and engineering best practices.

L2N SOFTWARE LIMITED — Software Engineer (Full Stack)

Aug 2018 – Jun 2023

Dhaka, Bangladesh

- Developed and maintained custom web applications for travel and property clients over a five-year tenure using Laravel, Symfony, Vue.js, and MySQL/PostgreSQL.

- Designed RESTful APIs and integrated third-party services for booking, payments, and business workflows across multiple client systems.
- Refactored and modernized legacy PHP modules into maintainable Laravel/Symfony code, improving performance and database query efficiency.
- Built full-stack features from database schema and Eloquent/Doctrine models through APIs to Vue.js interfaces.
- Established unit testing and debugging practices; mentored junior engineers on code quality and framework conventions.

QAHHAR LIMITED — Software Developer (Full Stack)

Jan 2018 – Jul 2018

Dhaka, Bangladesh

- Developed, tested, and deployed PHP client applications; debugged and upgraded legacy systems.

ICON IT SOLUTION — Senior Web Developer (Full Stack)

Jan 2016 – Dec 2017

Dhaka, Bangladesh

- Built responsive PHP web applications and customized CMS/e-commerce features; worked directly with clients on tailored solutions.

KEY PROJECTS

- **Travel Management System** — End-to-end booking platform that replaced manual booking and customer-management workflows with automated processes. PHP/Symfony · Vue.js · MySQL · REST APIs
- **Multi-Vendor Tour Marketplace** — Multi-vendor booking marketplace with vendor management, availability, and secure payment-gateway integration, run in production for real customer traffic. PHP · Vue.js · MySQL · Payment Gateways
- **CRM Platform** — Customer relationship management system handling customer records, sales workflows, and reporting for business clients. PHP · Laravel/Symfony · MySQL/PostgreSQL
- **AI Recruitment Platform** — Full-stack SaaS automating recruitment with AI interviews, CV processing, and candidate scoring. C# · ASP.NET Core · EF Core · Azure SQL · React/Next.js
- **CoreBari (corebari.com)** — **Independent SaaS product** — Multi-tenant suite of business apps (POS, lab management, payroll, invoicing) with SSO, offline-first sync, and local payment-gateway integration — live in production. Next.js · Node.js · PostgreSQL

EDUCATION

B.Sc. in Computer Science & Engineering

2011 – 2015

Pabna University of Science & Technology, Bangladesh
